Re After Hours Training

For the past several years I have educated professionals about various aspects of CLCA's Landscape Industry Certified Test. I have instructed at such venues as: the North Coast Chapter summer training seminars, as well as at the annual Landscape Industry Show, with great success. After years of perfecting my presentation and instruction methods, I have been granted permission by CLCA to offer my presentation in the community, for a fee.

I offer a three-hour class on Construction Math, which would be held at your facility. It includes ten modules and two quizzes. Throughout each module I work closely with the students to make sure that they are following along and sufficiently grasp the material. The quizzes allow the students to gain practice performing in a testing scenario.

This class is foreman level training, for those employees who may be interested in taking the Certification Test one day. Even if your employees are currently not planning on taking this test, it is still very valuable information for daily use and application out in the field.

The math skills that I cover are not overwhelmingly complex or complicated. For instance, two of the modules, Area and Inches to Feet, are simple to learn, and could come in handy. Let's say your customer calls the office and request mulch to be placed in the beds around the house. You have a crew there installing sprinklers in the back yard. Wouldn't it be nice to call the foreman and ask him to measure the beds and order the mulch, so you don't have to do it? Throughout the years that I have taught this course, student and their supervisors have always expressed appreciation and gratitude at having been given a new and valuable skill. As a result of their learning, each student feels more valuable and capable.

The fee is \$300.00 for up to ten people, handouts included. If necessary, a bi-lingual translator from your company would be very helpful, as I do not speak Spanish. In the event that there is more than ten people at one time, or if a translator needs to be provided, there is an additional fee of \$200.00. As an employer, providing this learning opportunity to your employees is a worthwhile and meaningful investment in your company.

I am available to conduct the course at 4 30 pm or later, Monday through Thursday, and occasionally on Saturdays. Payment is due prior to the start of the class. Satisfaction is guaranteed.

Please feel free to call my cell phone at (415) 686-9228, or email me at [hbuderlandscape@att.net](mailto:hbuderlandscape@att.net), to schedule a class, or if you have any questions.

Respectfully submitted,  
Henry Buder, CLP/CLT/QWEL
