★ Guidelines For Electronic Image Submission

We look forward to showcasing your award-worthy projects as well as we can, as often as we can. Please help us in doing so by following these guidelines:

- This is your work — make it look great! Consider hiring a professional photographer. Remember that the photos can be used not only for this awards contest, but as a great portfolio and/or website addition. They can also be on display in your office year-round to dazzle clients.
- Low resolution images (less than 300dpi at their intended size) **cannot** be used for print (award plaque, magazines or brochures.) To achieve the best quality images, be sure to set your camera to the highest resolution. Phone cameras typically do **NOT** provide images with quality suitable for printing or enlarging. File sizes of less than 1 MB do not enlarge well. A photo file that is 455 KB, for example, is not acceptable.
- Each entrant should send **NO MORE than seven** (7) high-resolution, digital jpg images. Additional photos are only required for the entry categories requiring “before” photos of the project. At least four (4) of the images should be in horizontal format. *entries that include more than six images will have the first six chosen as they appear on the disk.* CDs and thumb drives will not be returned.

Please name your files as shown below:

entry category/project name/photo number

Example: *Jacobsen's Residence is the project, and you are entering it in the Installation Category: Xeriscape (13). Label your first photo as follows:*

13jacobsen01.jpg or 13_jacobsen_01.jpg
 Label photos 1-6 and label one horizontal photo as “Plaque” which will be used on the award should you win.
